Clarity: VS 2 - I 1
Make/Cut:* Class N/A

Total weight: 3.86gms

Replacement new value**

\$N/A

Estimated (Indemnity) current value

\$2850.00

NOTE: Unless otherwise stated the stones in this appraisal have not been removed from the mount, therefore given the restrictions of the settings, any weight or grading applied is estimated only. To be given a definitive grade stones must be removed from the setting. When set diamonds are normally colour graded over three grades in accordance with G.I.A. recommendations, however, stones that appear higher than 'G' in colour, or VS 1 in clarity, will be stated to be 'G or higher' and 'VS 1 or better'.

**As diamonds of older styles are not available today, through normal trade channels, replacement new value is not applicable.

Representation of the G.I.A. diamond grading scale as used by this laboratory, with modifications as used by A.G.A. & N.A.J.A. incorporating finer grade splits [A & B in each grade]. Starting at the top grade in each range and descending.

The 'Cut/Make' scale does not apply to older makes or fancy cuts.
