"Specific use valuation and appraisal report"

Jewellery appraisal and valuation service requested for the use of obtaining insurance on the item presented by S.James Pedersen
Not valid for resale or other uses as these may have different value opinions, see customer agreement on page three.

The Item, appraisal report

One all yellow gold ladies brooch that has not been stamped, however readily apparent identification indicates the metal to be 14K gold. There are 11 small cabochon cut pieces of jadeite all set into four claw mountings.

The overall height is 55.60 mm and the width is 33.88 mm.

This ring has been handcrafted using a variety of techniques, which include the lost wax casting process hand assembly, using fabricated components with traditional hand forming, setting and finishing.

Condition, appraisal report Claws show up to 4% wear, Clasp shows up to 0% wear.

This item was most likely made circa 1960. It has been well cared for and is in as new condition. The clasp is safety type and locks well. All stones have been checked and found to be tight and secure in the settings at the time of inspection.

Gemmological appraisal report (with estimated characteristics)

Estimated Coloured Stone Characteristics

Type = jadeite

Shape and size = all low cabochons that measure up to 5.50mm x 8.00mm

Clarity = moderate

The stones shows moderate to severe surface wear and abrasions (one stone is broken).

The hue, (or colour) is described as slightly blue green with white patches.

The tone, (or darkness) is described as (7) On a Scale 1 to 9 where 9 is black and 1 is nil

The saturation, (or intensity) of colour is described (4) on a scale of 1 to 10, where 0 is low and 10 is vivid.

VALUATION REPORT with additional comments on page four.

This item has been most likely privately imported into New Zealand circa 1960, this item is no longer sold new, however comparable items are available from those retail jewellers that specialize in used sales of this type and age of items. It has been valued in this market for market value new.

Market value (new) sometimes called "replacement value" for a comparable item = **\$1,800.00**

In this case there is some very slight wear and therefore an adjustment has been made to allow for this and to represent the market value of the item, in its current condition.

Market value (in its current condition) sometimes called "indemnity value", present day value or fair value = **\$1,700.00**

Should you require a new and single item to be made as close as possible to the original using modern day techniques, then please use the cost estimate value. As this represents the most likely cost to buy from a retail manufacturing jeweller as a single bespoke piece. Note this value has been arrived at using the cost approach.

"Cost estimate value" \$ 4,200.00

See pages 2-4 for further details / definitions of values / signed customer agreement and scope of work. This valuation and appraisal should be read in its entirety.
