The description of all articles is as specific as possible with regard to physical components. • Precious metals and gemstones are positively identified and described. Unless stated all stones have been assessed in their settings, weights are based on their physical dimensions. The apparent grading of stones may be influenced by the colour and style of the setting. • Faulty or worn components are described as such. • New Replacement is based on the most common retail market for a similar quality new item. • Indemnity Replacement is based on a similar age, quality and condition item. • Antique/Estate Market Replacement is based on the 'willing buyer-willing seller' market for items not in current production.
