## "Specific use valuation and appraisal report"

Jewellery appraisal and valuation service requested for the use of obtaining insurance on the item presented by Not valid for resale or other uses as these may have different value opinions , see customer agreement on page three

The Item, appraisal report

One all yellow gold ring that has been stamped 750.

This ring features four emerald stones that have been set around the finger and separated by three carre cut diamonds, all have been end set rub over style. The overall height is 2.95 mm and the width is 4.33 mm. The band has a slightly rounded profile which tapers to 2.33 mm wide x 0.58 mm thick at the base.

This ring has been handcrafted using a variety of techniques, which include the lost wax casting process with traditional hand forming, setting and finishing.

Condition, appraisal report Claws show up to 5% wear, Sides show up to 5% wear, Band shows up to 50% wear. This item was most likely made circa 1970. It has been well cared for and is in good overall condition apart from rhodium plaiting worn. All stones have been checked and found to be tight and secure in the settings at the time of inspection.

## Gemmological appraisal report (with estimated characteristics) **Small diamonds**

There are 3 small diamonds each is carre (square) cut. Each measures 3.00 mm in width, the colour and clarity grades are EFG/VSI and the total weight is estimated at 0.50 cts.

## **Estimated Coloured Stone Characteristics**

Type = bervl

Variety = emerald

Shape and size

=square /3.00 mm /faceted

Treatment = 0il

Clarity

= moderate /one end stone is chipped.

The stones shows moderate surface wear and abrasions. The hue, (or colour) is described as slightly blue green.

The tone, (or darkness) is described as (6) On a Scale 1 to 9 where 9 is black and 1 is nil

The saturation, (or intensity) of colour is described (7) on a scale of 1 to 10, where 0 is low and 10 is vivid.

Note. It is normal practice for all coloured stones to be treated in various ways to enhance the colour and appearance. If there is evidence of treatment it is noted, if not, some may be assumed. Advanced gemmological procedures may be required

VALUATION REPORT (market explanation) with additional comments on page four.

This item has been most likely privately imported into New Zealand the exact item is not available ,however comparable items are available through New Zealand High street type retail jewellery stores. It has been valued in this market for market value new.

Market value (new)" sometimes called "replacement value" for a comparable item = \$5,800.00

In this case there is some slight wear and therefore an adjustment has been made to allow for this and to represent the market value of the item, in its current condi-

Market value (in its current condition)" sometimes called "indemnity value", present day value or fair value = \$5,400.00

Should you require a new and single item to be made as close as possible to the original using modern day techniques then please use the cost estimate value . As this represents the most likely cost to buy from a retail manufacturing jeweller as a single bespoke piece. Note this value has been arrived at using the cost approach. "Cost estimate value" \$5,400.00

See pages 2-4 for further details / definitions of values /signed customer agreement and scope of work. This valuation and appraisal should be read in its entirety. Accredited gems and Jewellery Valuer and Appraiser AiSCV \*\* AVS-GJV\*\*\* (AiV-Reg #0007).
