"Specific use valuation and appraisal report"

Jewellery appraisal and valuation service requested for the use of obtaining insurance on the item presented by
Not valid for resale or other uses as these may have different value opinions .see customer agreement on page three .

The Item , appraisal report

One all yellow gold ring that has been stamped 18 ct .This ring is a claw cluster which presents a central claw set ruby stone that is surrounded by a cluster of 10 small diamonds. The overall height is 5.31mm and the width is 13.32 mm. The band has a rounded profile which measures 2.57 mm high x 3.56 mm wide at the shoulder and tapers to 2.67 mm wide x 1.20 mm thick at the base.
This ring has been handcrafted using a variety of techniques, which include hand assembly, using hand fabricated components with traditional hand forming, setting and finishing.

Condition , appraisal report

Claws show up to 2 % wear, **Sides** show up to 2 % wear, **Band** shows up to 5 % wear . This item was most likely made circa 1920 .It has been well cared for, with recent claw repairs and is in near new condition. All stones have been checked and found to be tight and secure in the settings at the time of inspection.

Gemmological appraisal report (with estimated characteristics)

Small outer diamonds

There are 10 small diamonds each is Old European cut. Each measures 3.10 to 3.20 mm in width, the colour and clarity grades are EFG /SI and the total weight is estimated at 1.30 cts.

Estimated Coloured Stone Characteristics

Type = corundum
Variety = ruby
Shape and size = oval/faceted, 5.60 mm
Treatment = heat
Clarity = moderate

The stones shows almost no surface wear and abrasions .
The **hue**, (or colour) is described as slightly purple red .
The **tone**, (or darkness) is described as (5) On a Scale 1 to 9 where 9 is black and 1 is nil
The **saturation**, (or intensity) of colour is described (9) on a scale of 1 to 10 , where 0 is low and 10 is vivid.

Note. It is normal practice for all coloured stones to be treated in various ways to enhance the colour and appearance. If there is evidence of treatment it is noted, if not, some may be assumed. Advanced gemmological procedures may be required to prove

VALUATION REPORT (market explanation) with additional comments on page four .

This item has been most likely manufactured in New Zealand the exact item with older cut diamonds is not available new ,however comparable items are available from those retail jewellers who specialize in used sales of this type and age of items .It has been valued in this market for market value new .

Market value (new)" sometimes called **"replacement value"** for a comparable item = **\$6,800.00**

In this case there is some very slight wear and therefore an adjustment has been made to allow for this and to represent the market value of the item ,in its current condition.

Market value (in its current condition)" sometimes called **"indemnity value"**, present day value or fair value = **\$6,600.00**

Should you require a new and single item to be made as close as possible to the original using modern day techniques with modern equivalent cut diamonds, then please use the cost estimate value .As this represents the most likely cost to buy from a retail manufacturing jeweller as a single bespoke piece. Note this value has been arrived at using the cost approach.

"Cost estimate value" \$10,250 .00

See pages 2-4 for further details / definitions of values /signed customer agreement and scope of work. This valuation and appraisal should be read in its entirety.
