It is internationally recognized as a trade practice to treat many varieties of gemstones, by various methods, to enhance colour and/or clarity. Some evidence may be apparent when gemstones are assessed while mounted in their settings. However, removal may be required to confirm the presence of treatments in some instances. Treatments may not always be present, but some may be assumed.

NZ\$=US\$0.69

I have examined the articles listed and in my opinion the figures given represent the value of such articles for the purpose stated.

Values are expressed in NZ dollars, inclusive of GST where applicable.

All claws and settings have been inspected and are considered satisfactory unless otherwise stated.

All precious stones have been assessed in their settings; sizes and weights are based on their physical dimensions.

This appraisal has been prepared to the best of my knowledge and expertise, should any aspect cause concern please contact me.

NOTE:- Insurance Appraisals are not valid for reselling purposes.

\* Indemnity Insurance means:- To restore the claimant to the same position

as that held before the loss, i.e. the current retail price in New Zealand at the time of appraisal less any wear and tear apparent at the time. \* Antiques or pieces which are not in current production are taken at the value they would realistically fetch in an open market situation between a willing seller and willing buyer.
