### "Specific use valuation and appraisal report"

Jewellery appraisal and valuation service requested for the use of obtaining insurance on the item presented by  
Not valid for resale or other uses as these may have different value opinions, see customer agreement on page three.

#### The Item, appraisal report

One all white gold solitaire style ring that has been stamped 14K. This ring features a single older cut diamond that has been held in a high six claw setting that sits directly onto a flat tapered band. The overall height is 7.25 mm and the width is 5.83 mm. The band has a flat textured profile which measures 1.41 mm high x 2.90 mm wide at the shoulder and tapers to 1.41 mm wide x 1.13 mm thick at the base.

This ring has been handcrafted using a variety of techniques, which include hand assembly, using hand fabricated components with traditional hand forming, setting and finishing.

**Condition, appraisal report** Claws show up to 5 % wear, Sides show up to 15 % wear, Band shows up to 20 % wear. This item was most likely made circa 1960. It has been well cared for, but there is some wear to the band texture and is in good overall condition. All stones have been checked and found to be tight and secure in the settings at the time of inspection.

#### Gemmological appraisal report (with estimated characteristics)

Main diamond is Old European cut ( )

Colour = H/J  
Dimensions = 4.77 mm x 2.90 mm deep  
Weight = 0.41 cts  
Clarity = SI  
Table = 40 % of the width of the diamond.  
Culet = small to medium  
Girdle = ground

#### VALUATION REPORT (market explanation) with additional comments on page four.

This item has been most likely privately imported into New Zealand and the exact item is not available, however comparable items are available through most New Zealand traditional retail jewellery stores. This item is no longer sold new, however comparable items are available from those retail jewellers who specialize in used sales of this type and age of items. It has been valued in this market for market value new.

**Market value (new)** sometimes called "replacement value" for a comparable item = \$2,800.00

In this case there is some slight wear and therefore an adjustment has been made to allow for this and to represent the market value of the item, in its current condition.

**Market value (in its current condition)** sometimes called "indemnity value", present day value or fair value = \$2,200.00

Should you require a new and single item to be made as close as possible to the original using modern day techniques with a modern equivalent cut diamond, then please use the cost estimate value. As this represents the most likely cost to buy from a retail manufacturing jeweller as a single bespoke piece. Note this value has been arrived at using the cost approach.

**"Cost estimate value" \$4,600.00**

See pages 2-4 for further details / definitions of values / signed customer agreement and scope of work. This valuation and appraisal should be read in its entirety.
