Total Weight of Both Earrings: 2.4 grams approx

Not actual sizes

NEW REPLACEMENT VALUE: \$3,100.00

INDEMNITY MARKET VALUE: \$1,600.00

Note: NRV allows to replace with a similar new article of similar quality from the most common NZ retail market. IMV: See below. Actual weights and grades may differ from the estimates above. Greater accuracy would require analysis of gemstones out of the mount.

I have examined the articles listed and in my opinion the figures given represent the value of such articles for the purpose stated.

Values are expressed in NZ dollars, inclusive of GST.

All claws and settings have been inspected and are considered satisfactory unless otherwise stated.

All precious stones have been assessed in their settings; sizes and weights are based on their physical dimensions. The apparent grading of diamonds may be influenced by the colour and style of the settings.

This appraisal has been prepared to the best of my knowledge and expertise, should any aspect cause concern please contact me.

NOTE: - Insurance Appraisals are not valid for reselling purposes.

Jewellery Valuers Society
of New Zealand Inc

- The description of all articles is as specific as possible with regard to physical components. 'Precious metals and gem stones are positively identified and described.
- * All gemstones have their quantity, size and/or weight specified. 'The description includes reference to the condition and/or age of the article 'Faulty or worn components are described as such. 'Indemnity Market Value means: - To restore the claimant to the same position as that held before the loss, i.e. the quality secondhand current retail price in New Zealand at the time of appraisal less any wear and tear apparent at the time. * Antiques or pieces which are not in current production are taken at the value they would realistically fetch in an open market situation between a willing seller and a willing buyer.
