**"Specific use valuation and appraisal report"**

Jewellery appraisal and valuation service requested for the use of obtaining insurance on the item presented by to "Whom it may concern"  
*Not valid for resale or other uses as these may have different value opinions, see customer agreement on page three.*

**The Item, appraisal report**

One yellow and white gold (rhodium plated) ring that has been stamped 18 K. This ring has been made as a classic "Tiffany style" solitaire, with the diamond mounted into a six claw coronet which sits directly onto a white collet.

The overall height is 7.00 mm and the width is 7.20 mm. The band has a rounded profile which measures 3.00 mm high x 3.20 mm wide at the shoulder and tapers to 2.30 mm wide x 1.55 mm thick at the base.

This ring has been handcrafted using a variety of techniques, which include the lost wax casting process hand assembly, using cast fabricated components with traditional hand setting and finishing.

**Condition, appraisal report see notes page 4.** Claws show up to 0% wear, Sides show up to 0% wear, Band shows up to 0% wear. The ring is in new condition.

This item was most likely made circa 2020. It has been well cared for and shows no overall wear. The stone has been checked and found to be tight and secure in the settings at the time of inspection.

**Gemmological appraisal report (with estimated characteristics)**

Main diamond is modern brilliant cut.

Colour = JKL.

Dimensions = 6.00 mm x 3.66 mm deep.

Weight = 0.82 cts.

Clarity = I/2.

Crown angle = 35 degrees.

Table = 59% of the width of the diamond.

Culet = pointed.

Girdle = very thick / faceted.

**VALUATION REPORT (market explanation) with additional comments on page four.**

*This item has been most likely imported into New Zealand the exact item is not available, however comparable items are available through most New Zealand traditional retail jewellery stores. It has been valued in this market for market value new.*

**Market value (new) sometimes called "replacement value" for a comparable item = \$7,800.00**

*In this case there is some very slight wear and therefore an adjustment has been made to allow for this and to represent the market value of the item, in its current condition.*

**Market value (in its current condition) sometimes called "indemnity value", present day value or fair value = \$7,700.00**

*Should you require a new and single item to be made as close as possible to the original using modern day techniques, then please use the cost estimate value. As this represents the most likely cost to buy from a retail manufacturing jeweller as a single bespoke piece. Note this value has been arrived at using the cost approach.*

**"Cost estimate value" \$8,700.00**

**See pages 2-4 for further details / definitions of values / signed customer agreement and scope of work. This valuation and appraisal should be read in its entirety.**
