VALUATION REPORT (market explanation) with additional comments on page four .

This item has been most likely imported into New Zealand the exact item is not available ,however comparable items are available from those retail jewellers who specialize in used sales of this type and age of items .It has been valued in this market for market value new .

Market value (new)" sometimes called **"replacement value"** for a comparable item = **\$6,00.00**

In this case there is some slight wear and therefore an adjustment has been made to allow for this and to represent the market value of the item ,in its current condition.

Market value (in its current condition)" sometimes called **"indemnity value"**, present day value or fair value = **\$6,000.00**

Should you require a new and single item to be made as close as possible to the original using modern day techniques then please use the cost estimate value .As this represents the most likely cost to buy from a retail manufacturing jeweller as a single bespoke piece. Note this value has been arrived at using the cost approach.

"Cost estimate value" \$6,800.00

See pages 2-4 for further details / definitions of values /signed customer agreement and scope of work. This valuation and appraisal should be read in its entirety.
