Natural Beryl
Natural Emerald
12.67mm x 11.82mm x 6.28mm in depth.
6.65 ct.
Moderately Included
Good
WOC/Munsell colour reference: 5G, 6/8

Comments: Due to their growth conditions in nature and recovery methods, most Emeralds contain surface reaching features. For this reason, clarity enhancement is a common trade practice. It is an internationally recognized trade practice to treat gems of this variety by various methods to enhance the colour and/or clarity.

Positive origin identification may alter the value of the submitted gemstone. This can only be established by an international Laboratory (Gubelin/GRS/SWISS LAB) specializing in origin identification.

Comments: Replacement Value is based on a similar gemstone of equivalent carat weight and overall grade, supplied by a loose Gemstone online retail store.

INSTRUMENTS USED

- Binocular Microscope
- Cross Polarized Filters (CPF)
- Dichroscope
- Electronic Scale
- Gemstone / Diamond Tester
