COPY

N.B. Check (1) (single) and (7.00cm x 5.00cm) direct X-Ray radiograph.

N.B. Direct single X-Ray radiograph-examination indicate Pearls of (Beaded) (Cultured) and "Tahitian" origin.
For the purposes of this appraisal these (Pearls) graded as (Cultured) "Tahitian" origin.

It is an internationally accepted trade practice to treat Pearls, including Pearls of this variety, to enhance the Lustre, using traditional methods, i.e. polishing - although evidence of treatment is not immediately apparent in these Pearls. As present testing methods, as used by this Laboratory, may not detect the type of treatment applied, some may be assumed. This appraisal has been prepared ONLY on the basis that traditional Methods have been applied.

N.B. Cultured (Tahitian) Pearls presenting and graded in mount (in-situ)
Cultured (Tahitian) Pearls length & diameter & depth;
dimension measurements estimated due to mounts.

Double/Wire "Link" dimensions: 8 x est 20.00-19.86mm x 4.42-3.92mm x 1.01mm
